Hey Ken,
I have it in the log books, but the NASA announcer guy said that both CMGs 2 and 3 were powered down around 13:20. He said they had spun down to approximately 5000 rpm [down from 110 Hz to 83.3 Hz] and power was restored at 14:07.
Eric
MER GN&C Status: Stage EVA CMG Power Reconfiguration is complete and CMG 2 has returned to 6600 rpm as of GMT 14:57.
