

JSC Vacuum Chamber (A) Pit

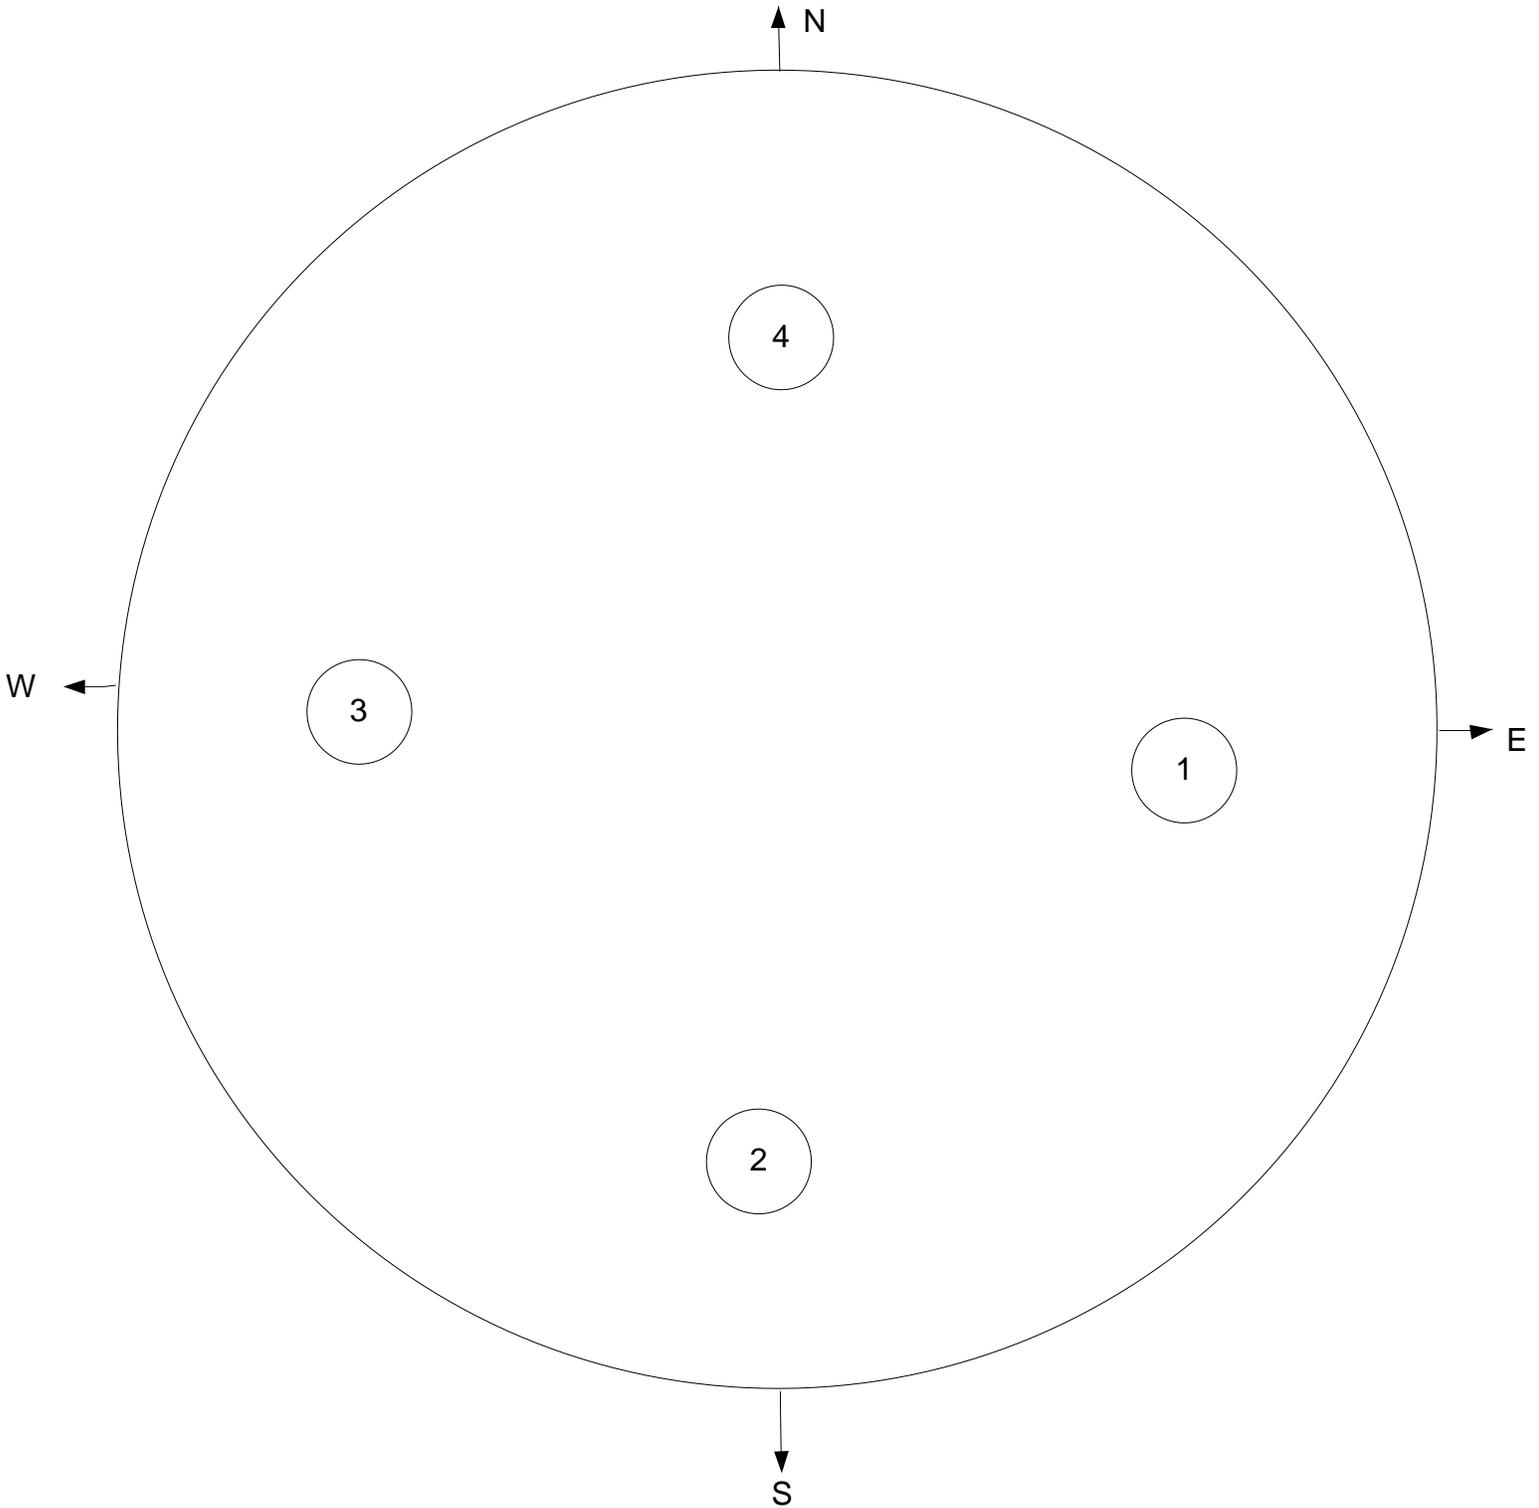

Is This The Reference Coordinate System of Interest for the Pit?

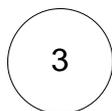

Can you verify/fix SAMS SN locations and orientations (perhaps with overlay on engineering drawing of the pit)?

JSC Vacuum Chamber (A) Pit

This Is Attempt to Decipher Photocopied Page

SAMS SN13 (point ?)
y = south
z = west

SAMS SN04 (point 3)
y = north
z = east

SAMS SN03 (point 11)
y = north
z = east

ARE THESE IN RED SAME LOCATION DESIGNATIONS AS ON "measurement locations drawing.pdf" FROM CHRIS?
I'M FAIRLY SURE WE ARE TO DISREGARD THIS SKETCH IN FAVOR OF THAT ON NEXT PAGE?
